

## EXPOSED LED

### IP54

### BEC\_BEF

Vertically-built LED Diode SMD monochrome lighting strip for outdoor use, easily cut into fully working 5-cm sections (or multiples). Very low consumption (11W), good brightness and prolonged duration (about 70,000 hours) with negligible heating. Ideal to back-light niches, to light banners and exhibitors or to create sceneries.

Power supply in 12V low tension, water-proof silicon sheath coating. 120° light emission angle. Units can be linked with each other up to a total length of 6 meters. Plastic supports for anchoring are included in the box
