

WATER-PROOF IP65 BIF _ BIC

300 led_12V_ 26W

LED Diode SMD monochrome lighting strip for outdoor use, extremely flexible and easily cut into fully working 5-cm sections (or multiples). Very low consumption (24W), great brightness and prolonged duration (about 70,000 hours) with negligible heating. Ideal to back-light niches, to light showrooms, refrigerators or refrigerated exhibitors, to light banners, to indicate routes or to create sceneries.

Power supply in 12V low tension, fully water-proof silicon sheath coating. 120° light emission angle. Units can be linked with each other up to a total length of 9 meters. Anchoring with 3M adhesive on the bottom and with plastic supports included in the box.
