

WATER-PROOF IP65 BIM MULTI-COLOR RGB

150 led_12V_36W

LED Diode SMD RGB lighting strip for outdoor use, extremely flexible and easily cut into fully working 5-cm sections (or multiples). Very low consumption (24W), great brightness and prolonged duration (about 70,000 hours) with negligible heating. Ideal to back-light niches, to light showrooms, to light banners, to indicate routes or to create sceneries in both private and private spaces such as cafes and clubs.

Power supply in 12V low tension, fully water-proof silicon sheath coating. 120° light emission angle. Units can be linked with each other up to a total length of 9 meters. Anchoring with 3M adhesive on the bottom and with plastic supports included in the box.
