

ORIGINAL IP20 BOM MULTICOLOR RGB 150led_12V_36W

LED Diode SMD RGB lighting strip for indoor use, extremely flexible and easily cut into several, all perfectly working 5-cm sections (or multiples). Very low consumption (36W), very good brightness and prolonged duration (70,000 hours) with negligible heating. Ideal to light niches, showrooms, exhibitors, to highlight details on shelves, to light banners, to indicate routes or to create sceneries in both private and private spaces such as cafes and clubs..

Power supply in 12V low tension. 120° light emission angle. Units can be linked with each other up to a total length of 10 meters. Anchoring with 3M adhesive on the bottom and with plastic supports including in the box.
